## Confectionery Jewellery for C

## COMPLETE SPECIFICATION

I, the undersigned, of 18 Walker Terrace, Plym-

of my invention is the production of such personal ornaments worn by children without incurring the risk of mischief to children present with ornaments made of hard substances, such as coral or ivory worn by children from the habit inherent in the majority of juveniles to put into their mouths and other small articles they can lay their hands on or to put into their mouths or pass-times into their mouths, and retaining them frequently resulting in the article or part of it finding its way into the child's throat or its stomach.

prevents all such mischiefs as the swallowing, partial or complete, of the stones used in the manufacture of jewellery, by encasing them in a soft material, such as wax, or putting them by confectionery.

...and the means by which it is to be carried into  
effect, be thoroughly understood, I will now describe the same  
...to the accompanying figures which are to be taken  
...and read therewith.
